Date: Feb 17, 2016

Subject: Woodlief Road TCE Site Summary
NONCD0002958

Andrew Potter of Wake County Environmental Services sampled a well at 9008 Woodlief Road, Wake Forest, Wake County in July, 2015. Trichloroethylene (TCE) was detected at 23 ug/l. Wake County notified NCDENR and US EPA (Ken Rhame), and resampled the original well and two nearest neighboring wells. Sample analysis showed 17.9 ug/l in the original well and no detects in the other two wells. EPA supplied bottled water to the affected residence.
